

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, DC, 20554

In the Matter of)
Creation of a Low)
Power Radio)
Service) MB Docket No. 99-25

My name is Ryan Emmett, and I strongly support any actions the Federal Communications Commission can take to expand and support the Low Power FM radio service. please let smaller rural communities have the originally proposed 1000watts instead of 100watts. WXCS-LP 92.9 is interfered with by stations in Buffalo and Pittsburgh which are both over 100 miles from the station. Local area school districts and residence need to receive announcements.
